

## **Sivaraj, Founder, Cuckoo Forest School Tamil Nadu**

In 2004, Mr. K. Sivaraj founded the Cuckoo Movement, focusing on nurturing young minds through inner discovery. Starting with a small library in Keeranur, the movement expanded to establish the Cuckoo Forest School in Puliyanur, built with sustainable materials so there was minimal environmental impact.

This school encourages children to cultivate an interest in arts, nature, martial arts, organic farming, and current events in a collaborative, knowledge-sharing environment. All costs of lodging and education are borne by the school so that all students could access quality education. In addition, he has also motivated many youngsters to set up community-based enterprises besides providing education in urban slums also.
